ABOUT ME

ICT support and development enthusiast with experience in web development and cybersecurity. ([HTML](#), [CSS](#), [JavaScript](#), [React](#), [Node.js](#), [Python](#), and [Firebase](#)). Familiar with Docker, hardware configuration, and basic networking ([IPv4/DHCP](#)). I enjoy learning new tech and working on challenging projects.

EXPERIENCE

Practical Assignment

Feb 2023 - Apr 2023

Internal School Environment

During school, I completed a practical assignment where I answered IT-related questions and resolved technical issues. I handled support tickets, reset passwords, and assisted with software and network problems

Logistics Employee

Jul 2022 - Jan 2023

Freight Logistics

As a logistics employee, I was responsible for receiving, inspecting, and storing goods. I learned efficient inventory management, used logistics software, and improved my communication skills by collaborating with different teams.

Retail Worker

2017 - 2019

Jumbo Supermarkten

I worked as a stock replenishment employee and was responsible for restocking shelves and ensuring products were neatly placed in the right spots.

INTERESTS

Play games like [RuneScape](#) or story-driven titles such as [Assassin's Creed](#)

Cybersecurity labs and ethical hacking ([TryHackMe](#), [Hack The Box](#))

Gym
